Skills

- **Languages**: C, C#, C++, JavaScript, PHP, Python, Java, HTML, CSS, SQL, MySQL, MongoDB
- **Frameworks**: Node.js, Express.js, React.js, Bootstrap, Tailwind CSS, .NET
- **Tools/Platforms**: Git, GitHub, Postman, Unix/Linux, VS Code, MS Office
- **SoftSkills**: Problem-Solving, Teamwork, Adaptability, Time Management, Critical Thinking

Projects

Manufacturing Execution System | GitHub — Dec' 2025

- Synthesised manufacturing workflows into a process-flow–centric MES while leading a 3-member team, modelling end-to-end production stages with dynamic, unbounded process nodes.
- Constructed a real-time backend execution engine with role-based user hierarchies and multi-user collaboration, enabling concurrent workflow editing and validation.
- Optimised system transparency and operational control through visual flow monitoring, step-level status tracking, and audit-ready execution logs, improving process visibility and ensuring consistent, repeatable execution across teams.

Tech Stack: Express.js, React.js, MongoDB, Node.js, Tailwind CSS, React Flow, WebSockets

AI-Integrated Learning & Career Guidance Platform | GitHub — Jul' 2025

- Developed a learning platform combining interactive education modules with secure authentication, personalized course onboarding, and AI-aware content delivery for education and career support.
- Built dashboards to visualize quiz performance, weak areas, and learning insights, and designed a quiz module with proctoring features including tab limits, fullscreen enforcement, and webcam overlay.
- **I**ntegrated AI-driven analytics using Gemini API**,** an AI chatbot for career guidance and skill recommendations**,** dynamic study scheduling, and PDF/text notes analyser for summarization and doubt-solving.

Tech Stack: Express.js, React.js, MongoDB, Node.js, Tailwind CSS

EstateEase | GitHub — Apr' 2025

- Instituted a streamlined property listing platform with real-time filters and dedicated property detail pages for a smooth browsing experience.
- Implemented a complete purchase flow, enabling users to seamlessly navigate from exploring detailed product listings to initiating and confirming transactions, ensuring an intuitive and user-friendly buying experience.
- Substituted a mock payment module with polished confirmation animations to simulate a realistic end-to-end checkout process, improving user engagement and delivering a more immersive transaction experience.

Tech Stack: HTML, CSS, Tailwind CSS, PHP

Certificates

- Computational Theory: Language Principle & Finite Automata Theory 5 - Infosys | Certificate — Aug' 2025
- CodeQuery: The Ultimate PUSQL & Data Science Bootcamp – LPU | Certificate — Jul' 2025
- The Bits and bytes of computer networking - Google | Certificate — Sep' 2024
- Introduction to Hardware and Operating Systems - IBM | Certificate — Sep' 2024
- Peer-to-Peer Protocols and Local Area Networks- UOC| Certificate — Sep' 2024

Achievements

- Achieved 2nd position in a soft-skills workshop, showcasing exceptional communication and teamwork. — Nov' 2023

Education

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.0** — Sep' 2023 – Present
- **Sheetal Model Sr. Secondary School** — Hamirpur, Himachal Pradesh
  Intermediate; **Percentage: 90%** — Apr' 2022 – May' 2023
- **Sheetal Model Sr. Secondary School** — Hamirpur, Himachal Pradesh
  Matriculation; **Percentage: 97%** — Apr' 2020 – Mar' 2021
